

## **Heart Rhythm 2024 Presenter Letter of Agreement**

1. I grant to Heart Rhythm Society (“HRS”) a royalty-free license to use, reproduce, and distribute my presentation (including, but not limited to, the content, information, and materials contained in such presentation) (referred to hereinafter as the “Presentation”) at Heart Rhythm 2024, (the “Program”) in any way in the future, with appropriate attribution to me. I understand that this license does not change the fact that I retain copyright ownership of the Presentation and does not prohibit me from using the Presentation in any way or from allowing others to use it.
2. I authorize HRS to use my name, likeness, photograph, and biographical data in connection with the use and promotion of the Program.
3. I give my consent for HRS to record the Presentation (the “Recording”). I understand that HRS is the sole copyright owner of the Recording and can distribute and sell it, along with any supporting materials. Upon request, HRS will provide me with one complimentary copy of the Recording, which I may use for my personal, archival use; however, I agree not to sell, distribute, or otherwise use the Recording in any other way, except with the prior written consent of HRS. I understand that any other recording of the Presentation is expressly prohibited.
4. To the best of my knowledge, the Presentation does not violate any proprietary or personal rights of others (including any copyright, trademark, and privacy rights), is factually accurate, and contains nothing defamatory or otherwise unlawful. I have full authority to enter into this agreement and have obtained all necessary permissions or licenses from any individuals or organizations whose material is included or used in the presentation.
5. I agree that the content I will present is valid per ACCME’s Standards for Integrity and Independence in Accredited Continuing Education which requires all recommendations for patient care to be based on current science, evidence, and clinical reasoning. I will give a fair and balanced view of diagnostic and therapeutic options. All scientific research referred to, reported, or used in support or justification of a patient care recommendation will conform to generally accepted standards of experimental design, data collection, analysis, and interpretation. New and evolving topics will clearly be identified as such when applicable.
6. I agree to use any templates and logos provided to be my HRS for any presentation I may utilize in connection with the Program (unless other arrangements have been discussed prior to the event), and I agree not to use these templates and logos in any way except in connection with the Program or other HRS programs.
7. HRS has no obligation to use the Recording, or to create, produce, advertise, or promote the Program, or to include the Recording in the Program, or to exercise any rights granted under this license. I acknowledge and agree that I have no right to review or approve the Program or the Recording before they are used by HRS or at any other time, and that HRS has no liability to me for any editing or alteration of the Program or the Recording.
