DATA COLLECTION AND USE FOR HEART RHYTHM 2021

HRS collects your registration information for the purpose of registering you to attend Heart Rhythm 2021. In submitting your information during the registration process, you consent to your personal information being used in the following ways:

- Information collected during registration will be used to process Heart Rhythm 2021 badges, verify contact and demographic information, send marketing emails, and send transactional emails and correspondence related to Heart Rhythm 2021 information and registration purchases. Email preferences, including the ability to opt out of Heart Rhythm 2021-related emails, may be accessed and updated within any email sent directly from HRS that you receive. This data will also be utilized to give access to virtual and technical platforms associated with Heart Rhythm 2021. Additional information regarding your data can be found under the Heart Rhythm 2021 Data Privacy Information below.
- Industry partners will be provided with your first and last name, academic credentials, work address, email address, primary occupation, and work environment, when you visit their pages in the Innovation Expo on the virtual meeting portal; if you linger in physical booth in Boston for at least two minutes; or if you allow your badge to be scanned. Primary phone number is shared only in the case of a physical scan by a device; primary phone number is not shared by

any passive scans (beacons) or when you participate in the virtual Innovation Expo or other virtual-only industry activities.

- Your data may be shared with third parties HRS engages with directly under contract to provide services related to Heart Rhythm 2021. These services include, but are not limited to, event analysis, event production, event advertising/marketing, hotel reservations, mobile app usage, and CME (Continuing Medical Education) and/or CE/MOC credit claiming.
- Throughout the registration process, you will be given instructions for ways to opt in or to receive information related to Heart Rhythm 2021. BEACON TECHNOLOGY AT HEART RHYTHM 2021

Badge Scanning

By attending any portion of Heart Rhythm 2021, including but not limited to, the plenary sessions, educational sessions, the Innovation Expo, or any general area dedicated to the event, the event owner or third-party vendor will be passively scanning your badge via Bluetooth receivers. The barcode and beacon on your badge do **not** contain your personal information, however, when your badge or barcode is scanned, you are authorizing HRS to securely share, with applicable parties, the contact details you provided during the registration process, including but not limited to, first and last name, academic credentials, work address, email address, primary occupation, and work environment. Primary phone number is shared only in the case of a physical scan by a device; primary phone number is **not** shared by any passive scans (beacons).

HRS and its educational partners use all information collected in compliance with applicable laws and all personal information will be collected and processed with the appropriate security following applicable data privacy and protection laws. Please contact the Heart Rhythm 2021 registration team at hrs@csireg.zohodesk.com to opt-out of scanning completely, including the ability to passively track which sessions you attend. Opting out will eliminate your ability to track sessions attended and the ability to prepopulate the credit card used to claim CME/CE Credit or MOC credit.

Exhibitor Scans

Exhibitors may ask to scan the barcode on your badge in exhibit booths in the Innovation Expo or at sponsored functions. You may decline to allow your badge to be scanned, however, exhibitors may restrict access to those who do not permit the scan. If you remain in an exhibit booth for longer than two minutes, equipment in the booth will automatically passively scan your badge. By remaining in a booth for more than two minutes, you are consenting to being passively scanned by the exhibitor. These scans confirm your intent to receive communications from that exhibitor. If you do not want to share your information with exhibitors, you may opt out at registration, or you can leave a booth prior

to two minutes. If your information is collected by exhibitors, by either active or passive scanning, you will be subject to the communications and privacy policies of their organization and must opt out with them directly.

Event Management Scans

You agree that HRS may have access to your choices regarding event participation in order to better understand overall attendee behavior, ensure HRS services are meeting attendee needs, and assist in producing more effective programs in the future. You also consent to having the personal information you entered at registration shared with educational partners and third-party vendors for the purposes of credit claiming.

To opt out of beacon services, email hrs@csreg.zohodesk.com.
